Module 2
Microsoft Cloud
Solution Center
Overview

Sonal Bordia

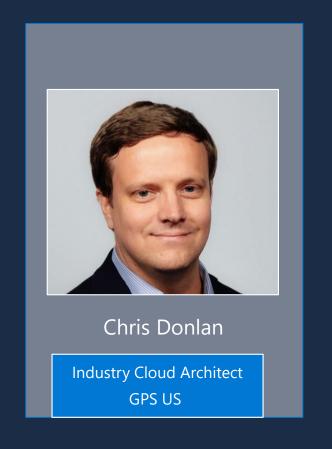

Meet your Instructors

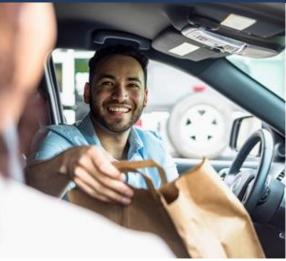

Know the Solution

- Packaging and Pricing
- Features and Solution Dependencies
- Introduction to Microsoft Cloud Solution Center
- Post deployment configurations

Getting Started

SELECT

 Select Microsoft Cloud for Retail capabilities for your enterprise 2

PROCURE

- Purchase Microsoft Cloud for Retail license for Unified Customer Profile/Retail Churn Model
- Obtain licenses for other Dynamics 365, Power Platform and Microsoft 365 components as needed for dependencies of selected features

3

DEPLOY

 Dynamics , Power Platform and M365 components through Microsoft Cloud Solution Center 2

CONFIGURE

• Solution configurations for each module

Select and Procure | Cloud for Retail

Pricing Model

Highlights

- [New] Industry-specific IP on top of existing cloud services
 - Unified Customer Profile
 - Retail Database template
 - CSA support (within usage limits)
 - Future extra CSA hour capacity available in separate SKU

License level: 1 Per Tenant

• Price: \$20,000 per month

Channel(s): EA

Add-on to Capabilities (2/1 launch)

Microsoft Cloud fo	r Retail Add-on	\$20,000/mo.
Purpose-built IP	 Unified retail customer profile atop CI (w/ Retail Churn Predictive Model) Retail Database template + New Future Products (TBD) 	•
	Industry-specific unlimited integrated support 24/7	•
Customer success	Industry-specific technical solution architects (CSA)	•
	Industry-dedicated Event Management	Add-on per event (GA TBA)

Features and Solution Dependencies

• Capability – Product mapping

Capabilities	D365 Commerce	D365 e- commerce	Microsoft Clarity	POS Add- On	D365 Fraud Protection	D365 Connected Spaces*	D365 Marketing	D365 Customer Insights	Promote IQ	Microsoft Advertising <i>Bing Ad</i> s	Azure Cognitive Search	Intelligent Recommenda tion	Azure Synapse analytics
	Per user	Per tenant	Free	Per device	Per transaction	Preview	Per Contact (tenant)	Per profile (tenant)	Ad rev sharing	Pay per click	Metered	Metered	Metered

Demand forecasting and planning optimization						•		•			

Deploy via Microsoft Cloud Solution Center

 New portal-based experience to simplify industry cloud deployments

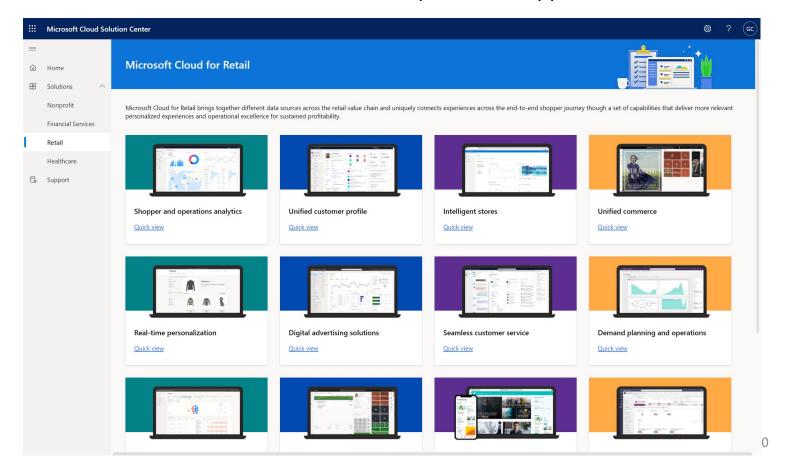

In-built licensing and prerequisite checks to simplify deployment process

Unified deployment and configuration experience across multiple lines of apps

Prerequisites:

- Enterprise has purchased Microsoft Cloud for Retail
- User is a Power Platform Admin or Dynamics 365 Admin to deploy the solution
- User has required licenses and dependent Dynamics 365, Power Platform and Microsoft 365 applications installed

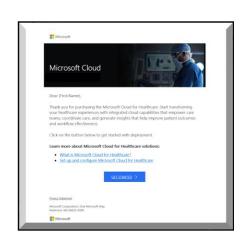

Deploy via Microsoft Cloud Solution Center

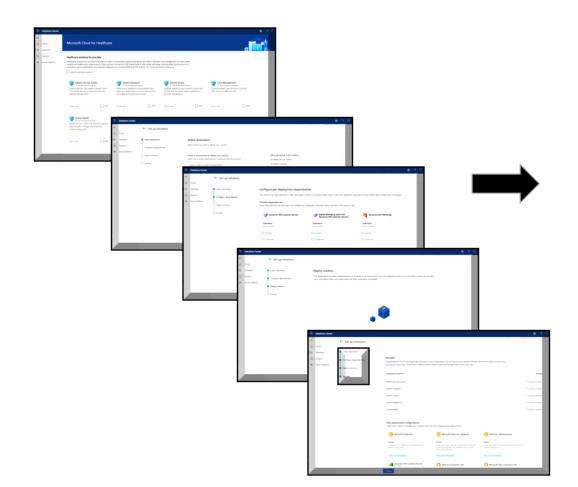

Post purchase mail

Microsoft Cloud Solution Center

Launch/Manage solution

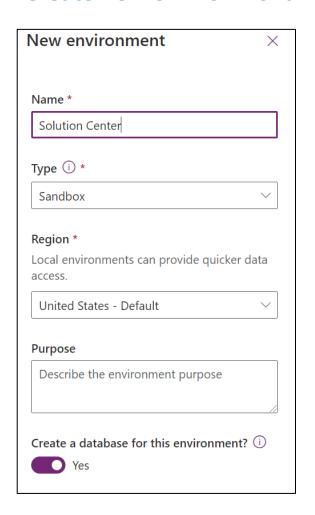

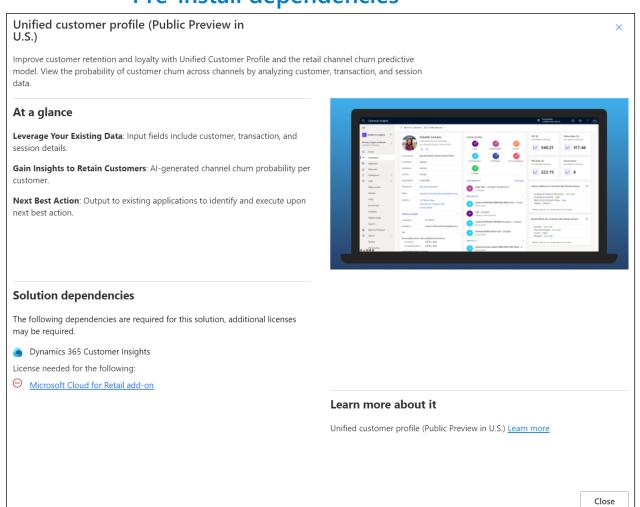

Deploy | Step 1: Prepare Environment

Create new environment

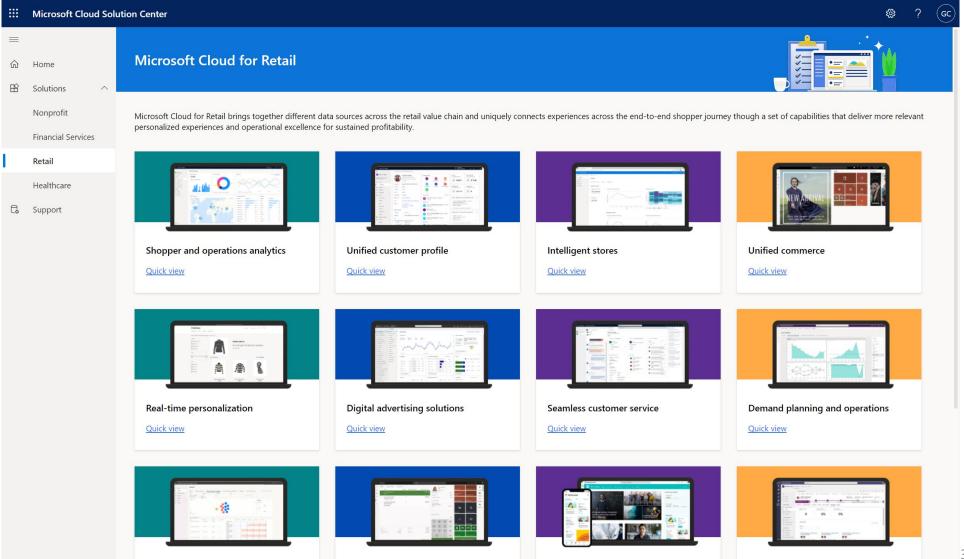

Pre-install dependencies

Deploy | Step 2 : Select Retail solutions
